

EDMA

Organisational Profile

EDMA, the European Diagnostic Manufacturers Association, is the trade association that represents the *In Vitro* Diagnostic (IVD) industry active in Europe. Through its affiliated national associations, EDMA represents a total of more than 550 companies engaged in the research, development, manufacture or distribution of IVD products.

EDMA acts in cooperation with the European institutions, as well as with other European and international trade associations representing medical devices, pharmaceuticals and biotechnology, scientific societies, health professionals and patient organisations, to raise awareness of the importance, usefulness and added value that diagnostic information can provide to healthcare.

For further information please visit our website at www.edma-ivd.be
