

Organisational Profile

The ICAEW is a world leader of the accountancy and finance profession, founded in the UK in 1880, with over 134,000 members in more than 160 countries.

Our members provide financial knowledge and guidance based on the highest technical and ethical standards. They are trained to challenge people and organizations to think and act differently, to provide clarity and rigour, and so help create and sustain prosperity. The ICAEW ensures these skills are constantly developed, recognized and valued.

The ICAEW is a founder member of the Global Accounting Alliance, which represents over 775,000 professional accountants in over 165 countries worldwide.

The ICAEW has been present in Brussels for fifteen years, facilitating dialogue among stakeholders on key public policy issues and providing technical advice across a broad range of topics including financial reporting, audit business law, corporate governance, financial services, tax, skills, regulation, ethnics, sustainability, SMEs and entrepreneurship.

Internship Profile

The intern's activities will be focused on the evolution of regulatory developments at European level. Working in close cooperation with the Head of EU Public affairs, main responsibilities will include:

- Research and analysis on specific EU regulatory initiatives
- Daily monitoring of specialised press
- Drafting of internal reports on key EU policy developments
- Research to support the ICAEW activities in Central and Eastern Europe
- Support for event design and management in Brussels
- Attending and reporting on specific EU policy platforms and meetings
- Possible ad hoc support for specific projects and advocacy activities.

Intern Profile

The successful candidate will have:

- Background in political science, economics, law, international relations or related area
- Interest in understanding the EU policy-making process
- Desire to gain a first professional experience
- Fluency in English (written and oral) – the ability to work in other EU languages is an asset
- Good computer skills
- Flexibility and ability to work as part of a small, dynamic team
