

Organisational Profile

ICODA European Affairs is an association of experts in the field of "European law and regulation". Since its foundation in 1991 ICODA European Affairs has built up a solid reputation in providing advice and assistance to Dutch partners with their European strategy, and is now expanding this successful approach to other countries. ICODA European Affairs aims to provide its clients with the most efficient approach to cooperate with Europe and to translate Europe as correctly as possible to the interfaces of these clients. Its key factors for success are a team of motivated professional consultants and lobbyists, a wide experience and know-how in several areas, a combination of actual knowledge of the European decision-making process with a profound field experience, an extensive, cross-border network and relationship of confidence with key players of the European and related decision making process, a no nonsense approach and personal attention. ICODA EA offers an internship with one of its partners.

Internship Profile

ICODA EA offers a full time internship with focus on the financial services sector, especially insurance. The intern will work very closely with the partner in charge of clients in the financial services area (insurance and pension funds especially). Tasks could include:

- Research and analysis of one of the financial sectors to increase background understanding
- Assistance in daily monitoring of key developments in the EU regulatory arena
- Research on particular issues of relevance concerning these upcoming regulation and other related areas
- Attendance of meetings with key stakeholders and reportage

Intern Profile

The intern should be:

- reliable and trustworthy, with eye for detail and deadlines
- good interpersonal and communication skills
- be able to work independently without forgetting he/she is part of a team
- analytical mind including willingness to research ambiguity
- efficient on-line research skills
- creative problem solving skills
- proficient in English, and preferably Dutch, any other language an asset
