Course Description
Based around three case studies of art in Belgium (or the equivalent cultural area before Belgium’s independence in 1830), the course intends to function as an eye-opener towards art and culture in Belgium from the 15th to the 20th century, by using a number of analytical tools in art appreciation, art historiography, the collecting and display of art, including some business and legal aspects. The course should provide an historical and intellectual framework for the other courses given at Vesalius College and life in Brussels during the Summer Course, so that students can contextualise the rich and diversified aspects of Belgian culture, as well as its quirky ones.
Learning Objectives
Classes are mostly organised in front of the original works of art, so as to encourage a pragmatic approach and visual experience. Active participation will further help students develop a critical vocabulary in the appreciation of art and increase their skills in expressing informed views on painting, sculpture, architecture and the decorative arts.
The richness of artistic holdings in Belgium is a direct consequence of the (historically) highest concentration of artists compared to any other part of Europe, including Italy. It is a small part of this artistic heirloom at our doorstep that we will be using for our three case studies.
It is hoped that students will gradually be able to draw numerous links between these three quite diverse case studies – allowing them to form a well-argued view of Belgian culture, its manifold roots and the remarkable continuity of some of its aspects.

Preparation for class and attendance
Given the short period during which the summer course takes place, students are required to read the materials, as indicated on the syllabus and/or announced during class, before coming to class. Class attendance and participation are essential and will influence the final grade. In the event you are unable to attend class, please notify the reception of Vesalius College by phone beforehand.

Written work
Written work for the course consists of one homework assignment.

Choose an essay title amongst the following:
- **Argue for and against the thesis that the Dukes of Burgundy used art for political propaganda. Illustrate your argument with a few specific cases that you analyse in detail. Then come to a conclusion giving a synthesis of your findings.**
- **Argue for and against the thesis that social and business aspects were more important to Rubens than his art. Illustrate your argument with a few specific cases that you analyse in detail. Then come to a conclusion giving a synthesis of your findings.**

Preconditions for the work to be graded (i.e. without these, grade=0):
1. written work must be typewritten, single spaced, 12 font, submitted electronically in a word processing file format (RTF/Word preferred), PDF will not be accepted as it does not allow for online corrections
2. length: **minimum 1000, maximum 1500 words** (excluding footnotes, references and bibliography)
3. you need to specify your sources (footnotes and bibliography), Harvard referencing style preferred, eg. for a book: author (year) *title*, publisher, place, pages.
4. do not use low-quality (internet) sources: please note that essays based on encyclopedia entries such as Wikipedia will not be accepted; in history of art, most serious sources are still in print and not internet-based, so you cannot do without sources published on paper.
5. the deadline is **Monday 23 June 2013 at 12 noon**, essay to be emailed to the course tutor; given the short duration of the term, overdue work will not be accepted

You are also encouraged to be critical towards your sources; be specific, establish connections, think outside the box…
**Presentation**
Apart from informal discussions and interventions, students are required to give one presentation for which some research will be required.
Duration: **minimum 2 minutes, maximum 5 minutes**.
Subject: Analyse the intrinsic and contextual qualities of one of the following works.

**Presentations to be done in situ during the field trips.**

**Midterm exam**
The midterm exam is a written exam which will take 40 minutes and will constitute two pairs of images to be compared and contrasted. These pairs of images will be projected on screen for 20 minutes each.

As a reminder, the following may constitute a methodological check-list (non-limitative list), to guide you in finding inspiration how to structure your comparisons:
- Artist / period / place of conservation
- Subject / iconography > meaning
- Composition / formal analysis > meaning
- Materials / techniques
- Stages in the conception and production
- Place of installation/exhibition
• Collection(s) / former collection(s)
• Contemporary and current reception
• Patrons, and their intentions
• Other actors in the commission, contemporary politics
• Signature(s), date(s) and other inscription(s)
• Sources of inspiration of the artist
• Influence on other works: imitations, derivations, copies

**Final exam**
The final exam is a written exam of the same format as the midterm exam, but will take one hour (three instead of two pairs of images). Make-up examinations are discouraged and will be allowed only in extreme emergency, which must be documented by a physician or college official.
